

Velox™ Compression Piping & Fittings Guarantee

Velox™ ... The superior quality and reliable compression piping system, with complete 24hr back-up customer support.

The Velox™ compression piping system delivers potable water in both high and low pressure applications.

Premium quality high density UV treated crosslinked polyethylene pipe ensures a PN20 rating providing strength and versatility. Velox™ incorporates a full range of fittings which are a slide compression sleeve system, produced from solid dezincification brass (DR).

Velox™ guarantees its quality with a 15 year warranty as well as complying with relevant Australian Standards (AS/NZ 2492, AS/NZ 2537) and carrying the WaterMark Certificate of Conformity for Sizes: 16, 20 & 25mm.

Yours sincerely

Tim Phillips
